

Great for retention ponds!

Easily maneuvers obstacles

Extremely versatile with deck shut-off system

Whether you are mowing a median, a retention pond, a military base, an airport or rights of way, the MowerMax™ Flex-Wing is the ultimate mower!

The MowerMax™ is designed from the ground up to be the most productive and safe, heavy-duty industrial/commercial mower on the market. The MowerMax™ has a hydrostatic drive with infinite speeds from 0-20 mph, all wheel drive with industrial tires and forward, 4 wheel and crab steering.

- **INCOMPARABLE VISIBILITY** - The cab forward design greatly enhances operator's visibility making for a much better and safer mowing experience.
- **OUTSTANDING MANEUVERABILITY** - 4 wheel steering and the wing deck shutoff system allows the MowerMax™ to be extremely maneuverable and productive!
- **OPTIMUM MOW-ABILITY** - With 3 blades per spindle and the wing shutoff system, the MowerMax™ gives a great cut and the ability to mow in narrow areas.
- **EXTREMELY COMPACT** - The MowerMax™ is half the length of a traditional tractor & batwing making it much safer and easier to operate.
- **EXCEPTIONALLY SAFE** - The above characteristics & features make the MowerMax™ safer when mowing and transporting. The operator no longer has to constantly be looking backwards like in a tractor & batwing!

Call for a demonstration or check us out online for more information, pictures and video!
